Citeureup, Bogor

Profil Summary

Informatics graduate with proven experience developing Laravel-based web applications, including an e-commerce platform and systems actively used by hospital staff for quality monitoring, temperature tracking, and risk management. Strong in full-stack development with the ability to deliver end-to-end solutions based on real-world operational needs.

Education

Gunadarma University – Depok, West Java

Sept 2021 – Sept 2025

Informatics - Industrial Technology

- Developed a Laravel-based e-commerce web application as a final project, including product management, shopping cart, and transaction features.
- Graduated with a GPA of 3.70 / 4.00.

SMK Negeri 1 Cibinong – Bogor, West Java

Jun 2018 – Jun 2021

Computer and Network Engineering

- Specialized in LAN installation, network configuration and troubleshooting.
- Gained hands-on experience in hardware or software setup and network management using Cisco, Mikrotik, and Linux systems.

Internship Experience

Azra Hospital – Bogor, West Java

Nov 2025 – Present

Fullstack Web Developer (Kemnaker Program)

- Developed Laravel-based web applications for operational needs, including systems for quality indicator assessment, temperature monitoring, and risk management used by hospital staff.
- Designed and implemented database structures and system workflows to support each application.
- Built applications using Laravel (full-stack), handling both backend logic and frontend interface.
- Delivered end-to-end solutions based on real-world requirements, from planning to deployment.
- Implemented data validation and dynamic features to ensure data accuracy and improved usability for end users.
- Managed and maintained the company's local server environment using Webmin, including application deployment, configuration, and system monitoring to ensure system reliability.

PT Parsaoran Global Datatrans – Cirasas, East Jakarta

Mar 2024 – Aug 2024

Admin and Web Developer

- Designed system workflows using UML and developed a structured database schema to support an e-commerce platform.
- Developed and maintained an e-commerce application using Laravel (Blade Template for frontend and backend logic).

- Integrated frontend and backend components to create dynamic and responsive user interactions.
- Implemented Midtrans payment gateway to automate transactions and improve payment reliability.
- Managed customer data and administrative operations within the system.

PT Carlwig – Depok, West Java

Dec 2019 – Mar 2020

IKR Technician

- Performed fiber optic cable installation, including stripping and connection.
- Installed and tested LAN networks to ensure stable connectivity.
- Conducted network maintenance and troubleshooting.

Technical Skills

- Backend Development: PHP, Laravel
- Frontend Development: HTML, CSS, JavaScript
- Database: MySQL, PostgreSQL
- Server & Tools: Linux, Webmin
- Networking: Mikrotik, Cisco
- Additional: Git, REST API, Midtrans

Personal Skills

- Strong problem-solving skills in debugging and improving web application functionality.
- Ability to design and implement system workflows and database structures.
- Experienced in handling end-to-end development, from requirement analysis to deployment.
- Capable of translating user needs into functional web-based solutions.

Certification

LSP - Badan Nasional Sertifikasi Profesi (BNSP)

- *Certificate of Competence (Junior Web Programming)* June 2025

Gunadarma University

- *Certificate of Training (Basic Web Application Development)* May 2025
- *Certificate of Training (Basic Web Application Design)* Sep 2024
- *Certificate of Training (Wide Area Network Using Mikrotik Router For Intermediate)* Feb 2024
- *Certificate of Training (Local Area Network Using Mikrotik Router)* Aug 2023
- *Certificate of Training (Fundamental Networking)* Feb 2023
- *Certificate of Training (Fundamental Server OS)* Feb 2022

LSP - Badan Nasional Sertifikasi Profesi (BNSP)

- *Certificate of Competence (Computer Network Services)* Apr 2021

SMK Negeri 1 Cibinong

- *Certificate of Training (Build a Wireless Network Portal Using Mikrotik Hotspot)* Sept 2019
